

Terrific Triathletes

The Phoenix Kids Triathlon, organised by the Olympic gold medal-winning Brownlee brothers, Alistair and Jonny, is a truly inspiring event for children across the country. The Brownlee Foundation, established in 2014, aims to promote a love for sports and active lifestyles among youngsters, providing them with invaluable opportunities. To date, an impressive 50,000 pupils from over 800 schools have participated in their events.

This July, 49 of our pupils had the privilege of joining the Triathlon at Moorways Sports Village and Waterpark. They showcased their swimming, cycling, and running skills with enthusiasm and determination. Upon their return, they proudly displayed their well-deserved medals, goody bags and t-shirts along with memories of a fantastic day filled with challenges and triumphs. These children are not just participants; they are champions in every sense of the word.
